

Access to your GP Medical Record

Our Medical Record Computer System is set-up so that if you receive medical care from one of the organisations below, they can, with your explicit permission, gain access to your GP Medical Record, thus helping them in their care of you.

Community Nursing Team

The nurses and other health professionals who work in the community and visit patients at their home

Onecall & Echo

The team who coordinate Urgent Care and End of Life Care in the community

St Wilfrid's Hospice

The team who Provide Tailored End of Life Care in the Community & at their Chichester Hospice

GP Extended Access

The clinics providing additional GP Appointments

These teams will not be able to access your medical record if you have not been registered with them to receive their services. They will also ask for your Explicit Consent to view your GP Medical Record when they first see or speak to you. If you say no, they will not access your record.

If you do not want one or more of these organisations to have this ability, please ask for a Sharing Dissent form from Reception. Please make such a decision carefully as it will mean that even if you subsequently gave them explicit consent, they would not be able to access your record until they have spoken to the Surgery. This would be delayed overnight and at weekends when the surgery is closed and potentially when they need such access the most.
